- After admission, the student is informed of the course selection process.

5.2. NOMINATION DEADLINE

It is recommended to check the specific deadline with the Student Mobility Office (OME), as it may vary each year.

Students are free to choose any course they wish, even if it is not in their degree program, provided they have the authorization of their home university.

6.3. ACADEMIC LOAD

- **Minimum credits:** 6 credits per academic period
- **Maximum credits:** 22 credits per academic period
- **Normal local course load:** 15 to 20 credits per academic period
- Although these minimum and maximum credits exist, students must verify with their home university whether there are any minimum prerequisites that must be completed at our university.
- Overlapping courses are not permitted (courses that have the same schedule, even if only by one hour).

7. ADDITIONAL INFORMATION

6.1 VISA

Each student is responsible for verifying whether they require a visa to remain in the country for at least four months (the duration of one academic term) or, if applicable, for the entire duration of their stay. If a visa is required, students must consult with the Dominican Republic Consulate in their country regarding the application process and necessary documents.

It is important for students to consult with the Consulate well in advance to learn about the required documents for submitting and applying for the visa. Once students receive their acceptance letter from our university, they must have everything ready and submit their application to the Consulate.

6.2 AVERAGE COST OF LIVING

The costs listed below are estimates. These will depend on the student's choices, especially regarding the type of accommodation and meal options. Costs are expressed in US dollars.

TO CONSIDER	AVERAGE MONTHLY COST

6.3 ACCOMMODATION

The university **does not have student residences**. However, we have a list of people who rent out rooms or entire units to students, but these are not university-affiliated residences. If you are interested in this, please let us know.

For finding available accommodation, we recommend booking through **Airbnb**, both for security reasons and because it is the best option for short stays (between 3 and 5 months). You can ask us about the options you see, and we can advise you.

Additionally, if you are interested in staying with a host family, please contact us to check availability.

6.4 HEALTH INSURANCE

Before arrival, students must present a copy of their **international health insurance policy** purchased in their home country, which must cover their entire stay in the Dominican Republic (from the day of their arrival in Santo Domingo until the date of their return to their country).

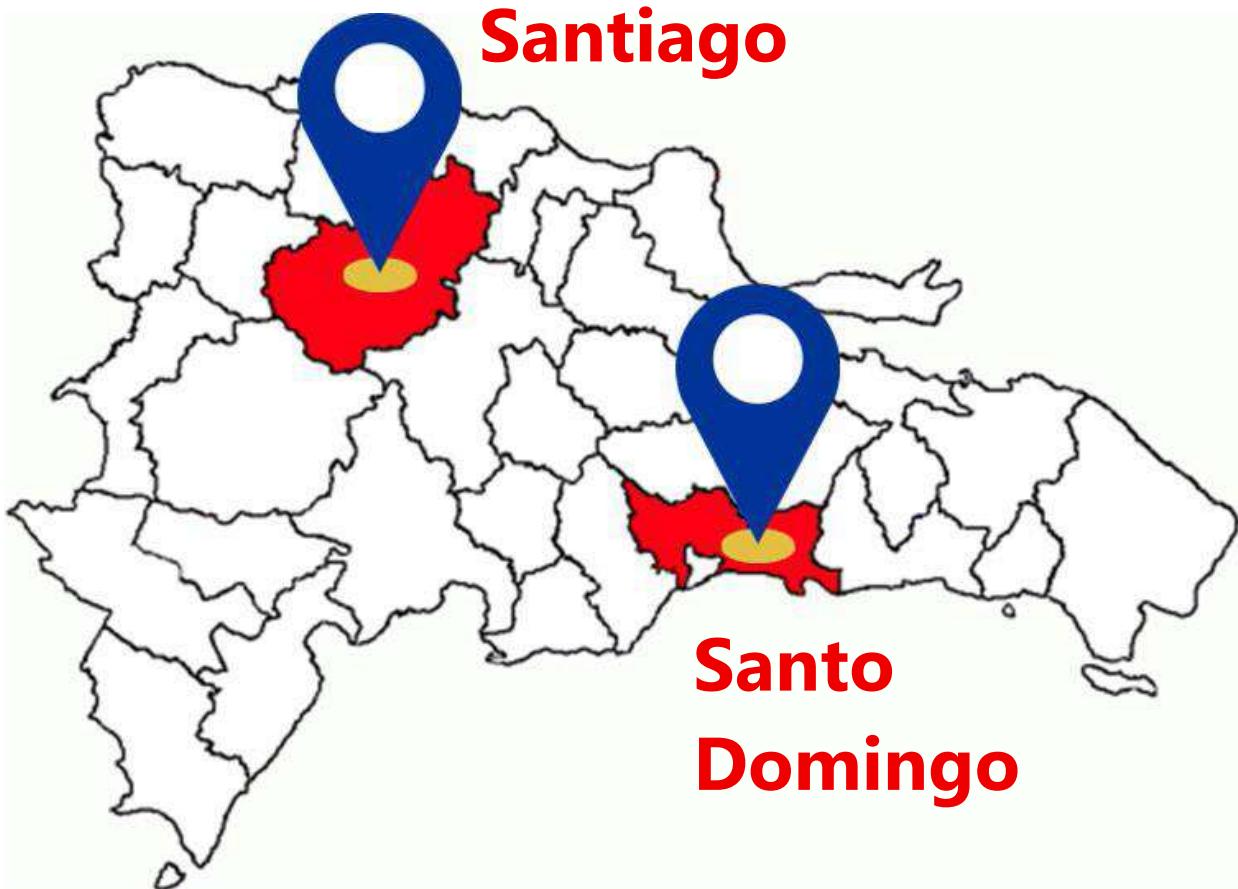

This insurance must include emergency services, outpatient care, hospitalization, and repatriation services, with direct credit at private clinics in the country. It is the student's responsibility to ensure they have coverage for health services in case of any emergency.

6.5 BUDDY PROGRAM

We have this initiative designed to help international students adapt more easily to their new academic, social, and cultural life at our university and in our country.

Each international student is assigned a "buddy," a local student who acts as a mentor, guide, and social support.

8. INFORMATION ABOUT THE CAMPUSES
